It's your latest "All Hands on Deck"

I.T. project. And you KNOW what that means.

The overwhelming systems problems.

The overwhelming deadlines.

The overwhelming personnel issues.

Overwhelming your time.

Overwhelming your budget.

And if you're not careful, overwhelming you.

It isn't supposed to be this way.

Ones and zeros. Lines of code.

Draw it up, then get it done.

Why does it have to be so complicated?

The answer is simple. IT DOESN'T.

astoundry

I.T. AS IT SHOULD BE
